Accu-Steel

BUILT AROUND

GRAIN

FLAT STORAGE GRAIN

FABRIC-COVERED BUILDINGS

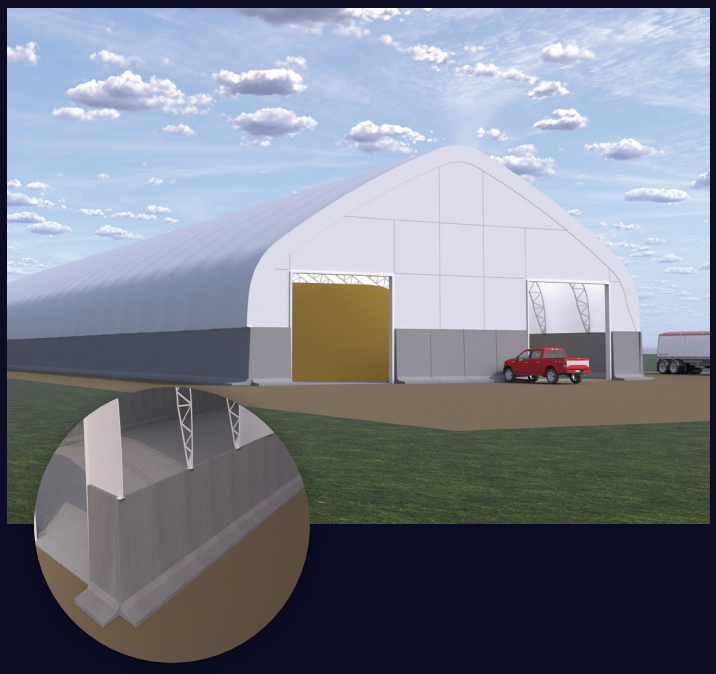

ANY CAPACITY. ANY FOOTPRINT. ANY TIMELINE.

Reduce your overall cost per bushel.

Our fabric-covered grain storage buildings are built around you—giving you more control over design options, foundation choices, capacity, construction timelines, and more. Our ag experts and certified dealers work with you to ensure your building works for you, protecting your assets more affordably than traditional grain storage.

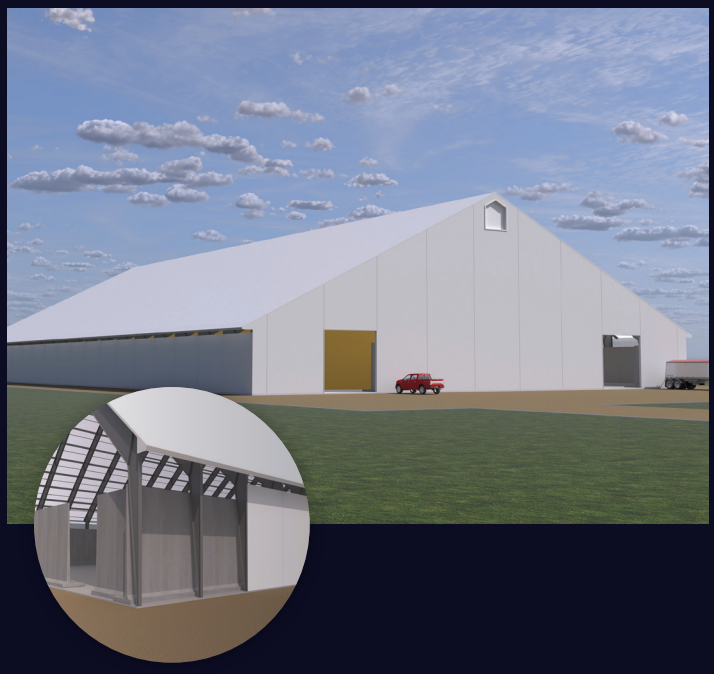

Integrity Series

Up to 1 million bushels

Optional pre-cast concrete “T” wall panels

Crossover Series

1 - 2 million bushels

Optional pre-cast concrete “L” wall panels
