

## ACCU-STEEL ADVANTAGE BUILDINGS

Standard buildings: 30' to 80' widths | High Profile buildings: 40' to 60' widths

- Hot-dip galvanized steel meets ASTM-A-123 standards
- USDA/NRCS/EQIP compliant
- Cold rolled forming, no press and no stress
- Easy to maintain
- One of the best warranties in the industry, including corrosive environments
- Superior airflow – warmer in winter, cooler in summer
- Fully engineered to handle snow and wind loads
- Multiple foundation options
- Ability to install overhead doors, conveyors, sprinklers, lights, cranes, and more
- High-performing, durable Enduro-Loc™ polyethylene fabric
- Optional Keder cover system is exceptionally low-maintenance and weather-secure
- Many fabric colors available

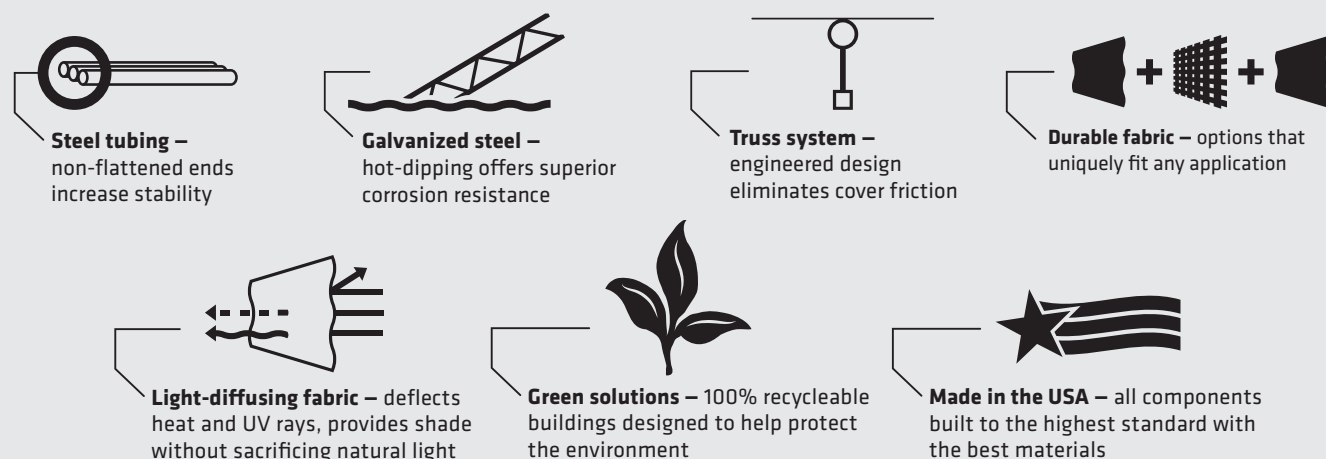

### The Accu-Steel promise

We promise to deliver a full-range of high-quality fabric-covered buildings at the best possible price. Our recommendations will have your unique business objectives in mind and every member of our staff is dedicated to providing you with an exceptional level of service and support. That's our commitment to you.

Please visit [AccuSteel.com](http://AccuSteel.com) or call 877.338.6936.

**Little details. Big difference.** We proudly manufacture all our products at our facility outside of Templeton, Iowa. That's how we're able to produce the highest quality fabric-covered buildings at the lowest cost to you. At Accu-Steel, we work hard to make sure every component is quality-constructed for optimum performance. No cutting corners. No compromises.

# EXPERIENCE THE ADVANTAGE.

*The features you need for virtually any application.*

Accu-Steel Advantage buildings are designed with rigorous engineering principles to ensure long-lasting performance. Whether you're protecting equipment and other inventory; housing livestock; or storing salt, sand, or fertilizer—Accu-Steel will help you select the right building to keep your operation as productive as possible.

## Accu-Steel Advantage buildings – a better choice

Advantage buildings are a better alternative to traditional metal buildings because they provide similar protection while offering abundant natural light, lower energy costs, better airflow, and fewer maintenance requirements. Advantage buildings can also be relocated, if necessary.

At Accu-Steel, we pride ourselves on being the highest quality product at the best available price. Take some time to educate yourself on the different fabrics, corrosion protection, gauges in steel, and engineering involved. We're confident you'll realize we provide the lowest cost of ownership throughout the lifespan of our buildings. It's a smart financial investment you can feel good about.

Advantage buildings are customizable to complement your site and are ideal for a wide range of applications, including:

- Livestock operations
- Equipment storage
- Grain/hay/commodity storage
- Salt/sand/fertilizer storage
- Riding arenas
- Warehousing
